Om

Beskrivelse

Torsten er partner og leder vores GDPR- og IT-retsafdeling.

Han er certificeret IT-advokat og højt specialiseret inden for persondataret og IT-ret, hvor han rådgiver et bredt spektrum af private virksomheder og offentlige myndigheder. Torsten fungerer også som ekstern DPO for flere virksomheder.

Med sin erfaring som tidligere intern jurist og leder i flere større IT-virksomheder har han omfattende kendskab til teknologien, processerne og udfordringerne, der relaterer sig til juraen. Han bruger denne viden til at finde brugbare og implementerbare løsninger, der tager hensyn til både kommercielle aspekter og juridiske nødvendigheder.

Ud over sit fokus på persondataret og IT-ret håndterer Torsten også markedsføringsret, immaterialret, ESG-rådgivning, rådgivning til iværksættere, LegalTech og AI-relaterede udfordringer.

Torsten er en erfaren og eftertragtet oplægsholder, og han deler ofte ud af sin store viden, giver konkrete eksempler og kommer gode råd til virksomheder og klienter, når der kommer ny lovgivning eller retningslinjer på det dynamiske persondata- og IT-retlige område, så virksomheder kan nå at handle i tide.

Rankings

The individuals we work with stand out not only for their legal expertise but also for their strong commercial acumen and solution-driven mindset. What truly differentiates them from competitors is their ability to combine technical excellence with a practical understanding of our business needs. Rather than taking a purely academic or risk-averse approach, they focus on what is commercially realistic and aligned with our objectives.

- Legal 500

Pragmatic and very easy to work with. A high level of competence and good business understanding gives a solid foundation for giving legal advice.

- Legal 500

What makes this practice stand out is its combination of deep legal expertise, commercial understanding, and a highly service-oriented approach. One of the key strengths is the team's flexibility and responsiveness; they are able to step in on short notice and deliver high-quality legal support without compromising on thoroughness or insight. This agility is a major asset, particularly in fast-paced or high-stakes situations.
