ABOUT DANISH JUSTICE FOUNDATION

Danish Justice Foundation is once again hosting a charity dinner with the purpose of raising funds primarily to help people in developing and third world countries and those affected by war aggressions in the Middle East and in South East Asia who are subject to human right's violations.

Our aim is to improve conditions in the parts of the world where people for various reasons are deprived of their human rights.

We are dedicated to actively promote democracy and to fight for equal rights for everyone throughout the world. This will be achieved mainly by raising funds in Denmark which are carefully distributed to selected collaborators in relevant regions of the world assisting Danish Justice Foundation in pursuing our aims.

A ticket for this unique evening and 4 course dinner which also provides great opportunities for networking is DKK 3500 incl. of closing coffee and sweets.
