

IT and Technology

Unlock success in the digital era - legal advice on IT, technology and personal data that helps your company move confidently towards success.

Practice Area

Our specialized attorneys within IT, technology and GDPR are dedicated to advising companies on the legal aspects of IT and other technologies. We acknowledge that the explosive technological advancements, digitalization and market disruptions opens up for new business models, perspectives, and growth opportunities. Consequently, a comprehensive understanding, blending commercial, technical, security, and legal considerations, is essential when navigating the realms of IT and technology.
